Issue date	
Hand in deadline	

Vocational Scenario or Context	You are at the end of a period of work experience. The setting is a residence for individuals who have complex needs. The residence has a dementia wing and a day centre attached as part of the complex. The manager has asked you to produce some materials, showing your understanding of the work of the setting, and what you have learned so far.

Task 1	Referring to the attached case studies, produce a report that: • evaluates how successful the promotion anti-discriminatory practice has been when care and support has been provided for each of your selected individuals • justifies each of the strategies and techniques used by the professionals in the residence to overcome the ethical issues and challenges faced by each of your two selected individuals. In your report you must consider advantages and disadvantages to approaches taken to promote anti-discriminatory practice for each of your selected individuals. Your report must also include detailed analysis and current research to support your conclusions and recommendations. All conclusions must be valid and placed in the context of the case studies.
Checklist of evidence required	Report

Criteria covered by this task:	
Criteria reference	To achieve the criteria you must show that you are able to:
A.D1	Evaluate the success of promoting anti-discriminatory practice for specific individuals with different needs.
BC.D2	Justify the strategies and techniques used to overcome ethical issues and challenges experienced by individuals with different needs when planning and providing care.
A.M1	Analyse the impact of preventing discrimination for individuals with different needs.
A.M2	Assess different methods professionals might use when building relationships and establishing trust with individuals with needs.
B.M3	Analyse how an ethical approach to providing support would benefit specific individuals with different needs.
C.M4	Assess the strategies and communication techniques used to overcome different challenges faced by individuals with different care and support needs.
A.P1	Explain the importance of promoting equality and diversity for individuals with different needs.
A.P2	Explain the skills and personal attributes necessary for professionals who care for individuals with different needs.

B.P3	Explain how to incorporate ethical principles into the provision of support for individuals with different needs.
C.P4	Explain the strategies and communication techniques used with individuals different needs to overcome different challenges.
C.P5	Explain the benefits of promoting personalisation when overcoming challenges faced by individuals with different needs.
Task 2	You have now been asked to produce a second report which justifies and evaluates how three professionals from different organisations work together to meet the specific needs of your two, selected individuals. Your report must consider how well each professional manages confidential information for each individual. Your report must assess the benefits of a multi-disciplinary and multi-agency approach in delivering care and support, and explain why the needs of individuals can be best met by involving different agencies. Your report must include an analysis of how legislation and codes of practice can impact the sharing of confidential information between professionals in the setting.
Checklist of evidence required	Report
